

CONSTIPATED?!! BLOATED?! BACKED UP?!

You Are Only
2 Hours

Away From Complete Relief!

Travel by air, road or rail can drastically change our patterns of diet and elimination.

Sitting for hours, ignoring the call of nature or suffering from lack of available washrooms all lead to dehydration and compression of waste in the colon.

Aircraft cabin pressure also causes dehydration and compression.

Most restaurant and in-flight food lacks the fibre necessary to move our bowels.

Herb Cocktail
